SUMMARY

Accomplished professional with expertise in planning, designing, and implementing high-quality websites. Skilled in HTML, CSS, JavaScript, and WordPress. Proven ability to quickly understand requirements, create innovative solutions, and complete projects within tight deadlines. Highly organized and detail-oriented, with a knack for finding creative solutions to challenging problems.

PROFESSIONAL EXPERIENCE

Web Developer (Contract)

July 2024 - Present

Shangar Creation - Toronto, Canada

- Creating a catalogue website for Shangar Creation using Wix, ensuring a user friendly and visually appealing design.
- Managing and maintaining the website, updating product listings, and optimizing site performance.
- Collaborating with the design team to implement features that enhance the user experience.
- Ensuring the website is responsive and accessible across various devices. Utilizing Wix tools and features to create custom functionalities as per client requirements.
- Monitoring website analytics and implementing improvements based on user behavior and feedback.

Assistant Front-end Developer

July 2023 - Dec 2023

Shree Jay Ambe Transline PVT LTD - Ahmedabad, India

- Assisted in the development and maintenance of user-facing elements for web applications using HTML, CSS, JavaScript and React.
- Developed and maintained React components, resulting in a 40% reduction in code redundancy and a 25% improvement in application load times.
- Worked closely with designers to translate wireframes and mockups into interactive, visually appealing web pages, increasing user engagement by 20%.
- Debugged and troubleshooted issues, resolving front-end bugs and optimizing performance to enhance user experience, improving overall website performance by 25%.
- Assisted in the integration of RESTful APIs to fetch and display dynamic data, enhancing the functionality of web applications and reducing data retrieval time by 35%.
- Contributed to the documentation of front-end processes and best practices, aiding in the onboarding of new team members.

PROJECTS

- **Food Delivery Website (MERN Stack)**
 - <https://github.com/Bhavya1307/FoodDeliveryApp.git>
 - Developed a full-stack food ordering website using React JS, MongoDB, Express, and Node JS.
 - Implemented user authentication and authorization using JSON Web Tokens (JWT).
 - Integrated Stripe payment gateway for secure online transactions.
 - Designed and developed a responsive user interface for seamless user experience across devices.
 - Utilized React hooks and context API for efficient state management.
 - **Pet Adoption Website (Node.js & Express)**
 - <https://fur-ever-home-azure.vercel.app/>
 - Created a pet adoption platform using Node.js and Express framework.
 - Designed and implemented a RESTful API for managing pet listings and user interactions.
 - Developed a responsive front-end using pure HTML, Pug and CSS.
 - Incorporated image upload functionality for pet profiles using Multer middleware.
-
